**PROCEDURES****ALL ABD COAs****Household  
Goods &  
Personal Effects**

Assume, absent evidence to the contrary, that all household goods and personal effects an A/R or deemor owns are excluded under this provision. No further development is required.

Follow the procedures below if the A/R alleges ownership of other personal property that is **not** excludable as household goods or personal effects.

**Step 1** Verify the CMV of the item(s) using any reliable evidence the A/R may have when s/he alleges or the MES otherwise discovers ownership of property that is considered investment property. Acceptable evidence could include a recent sales slip, an appraisal of the item(s), or insurance coverage. If this information is not available, obtain an estimate from a knowledgeable source such as a local merchant.

**NOTE:** Insurance appraisals and amounts of insurance coverage often reflect replacement value (the amount it would cost to purchase a similar item new) rather than CMV. Do not use replacement value in lieu of CMV.

**Step 2** Determine the equity value (EV) of any item on which the A/R or deemor alleges there is an encumbrance to determine the amount of countable resources.

**Step 3** Deny the case if the value of the resource puts the A/R over the resource limit.

**Step 4** Send appropriate notice to the A/R authorized representative and any other required entities.
