Refer to Section 2653, Prospective Budgeting.</p> <p>Normal fluctuations in the income amounts are not considered a change in circumstances and do not require a recalculation of representative income. Normal fluctuations include the following:</p> <ul style="list-style-type: none"> • overtime not expected to last for more than one calendar month • a fifth or periodic paycheck • vacation/sick pay received within a calendar month. <p>This list is not all inclusive. Continue Medicaid for the AU members in Family Medicaid other than FM-MN.

In Family Medicaid-Medically Needy (FM-MN) cases:

- Eligibility for all MAGI and Non-MAGI Medicaid COAs and PeachCare for Kids[®] must be ruled out prior to determining eligibility under FM-MN
- Recalculate all income received and calculate prospective income for each month remaining in the budget period.
- If the budgeted income places the case in spenddown status or increases the spenddown amount, change the case status in the system and notify the AU

Do not deny a case as over income if it is trickling to FM-MN (P99 or F99). Allow the case to trickle, then use the appropriate CMD closure code in the system so A/R receives the correct FM-MN disposition notice as well as the CMD notification. These steps should be done on the same day.

Request the BG to submit any medical bills not covered by Medicaid to apply to the spenddown. If budgeted income does not change the eligibility status, document the record.
